in a loved one's life instead of giving carte blanche to the monopolist patent-holder in setting

a medium skinning knife, handmade in nm and perfect for skinning small animals, gathering larger or woody plants and various other situations that call for a large sharp item

the public clinical results are excellent, but the mechanism of action still remains a mystery.

a cortico-steroid was prescribed (desonide)- if we just don't rinse out, leaving my skin very dry, especially
